Doc, no offence, but I really don't care. It's a generator, it generates shit.

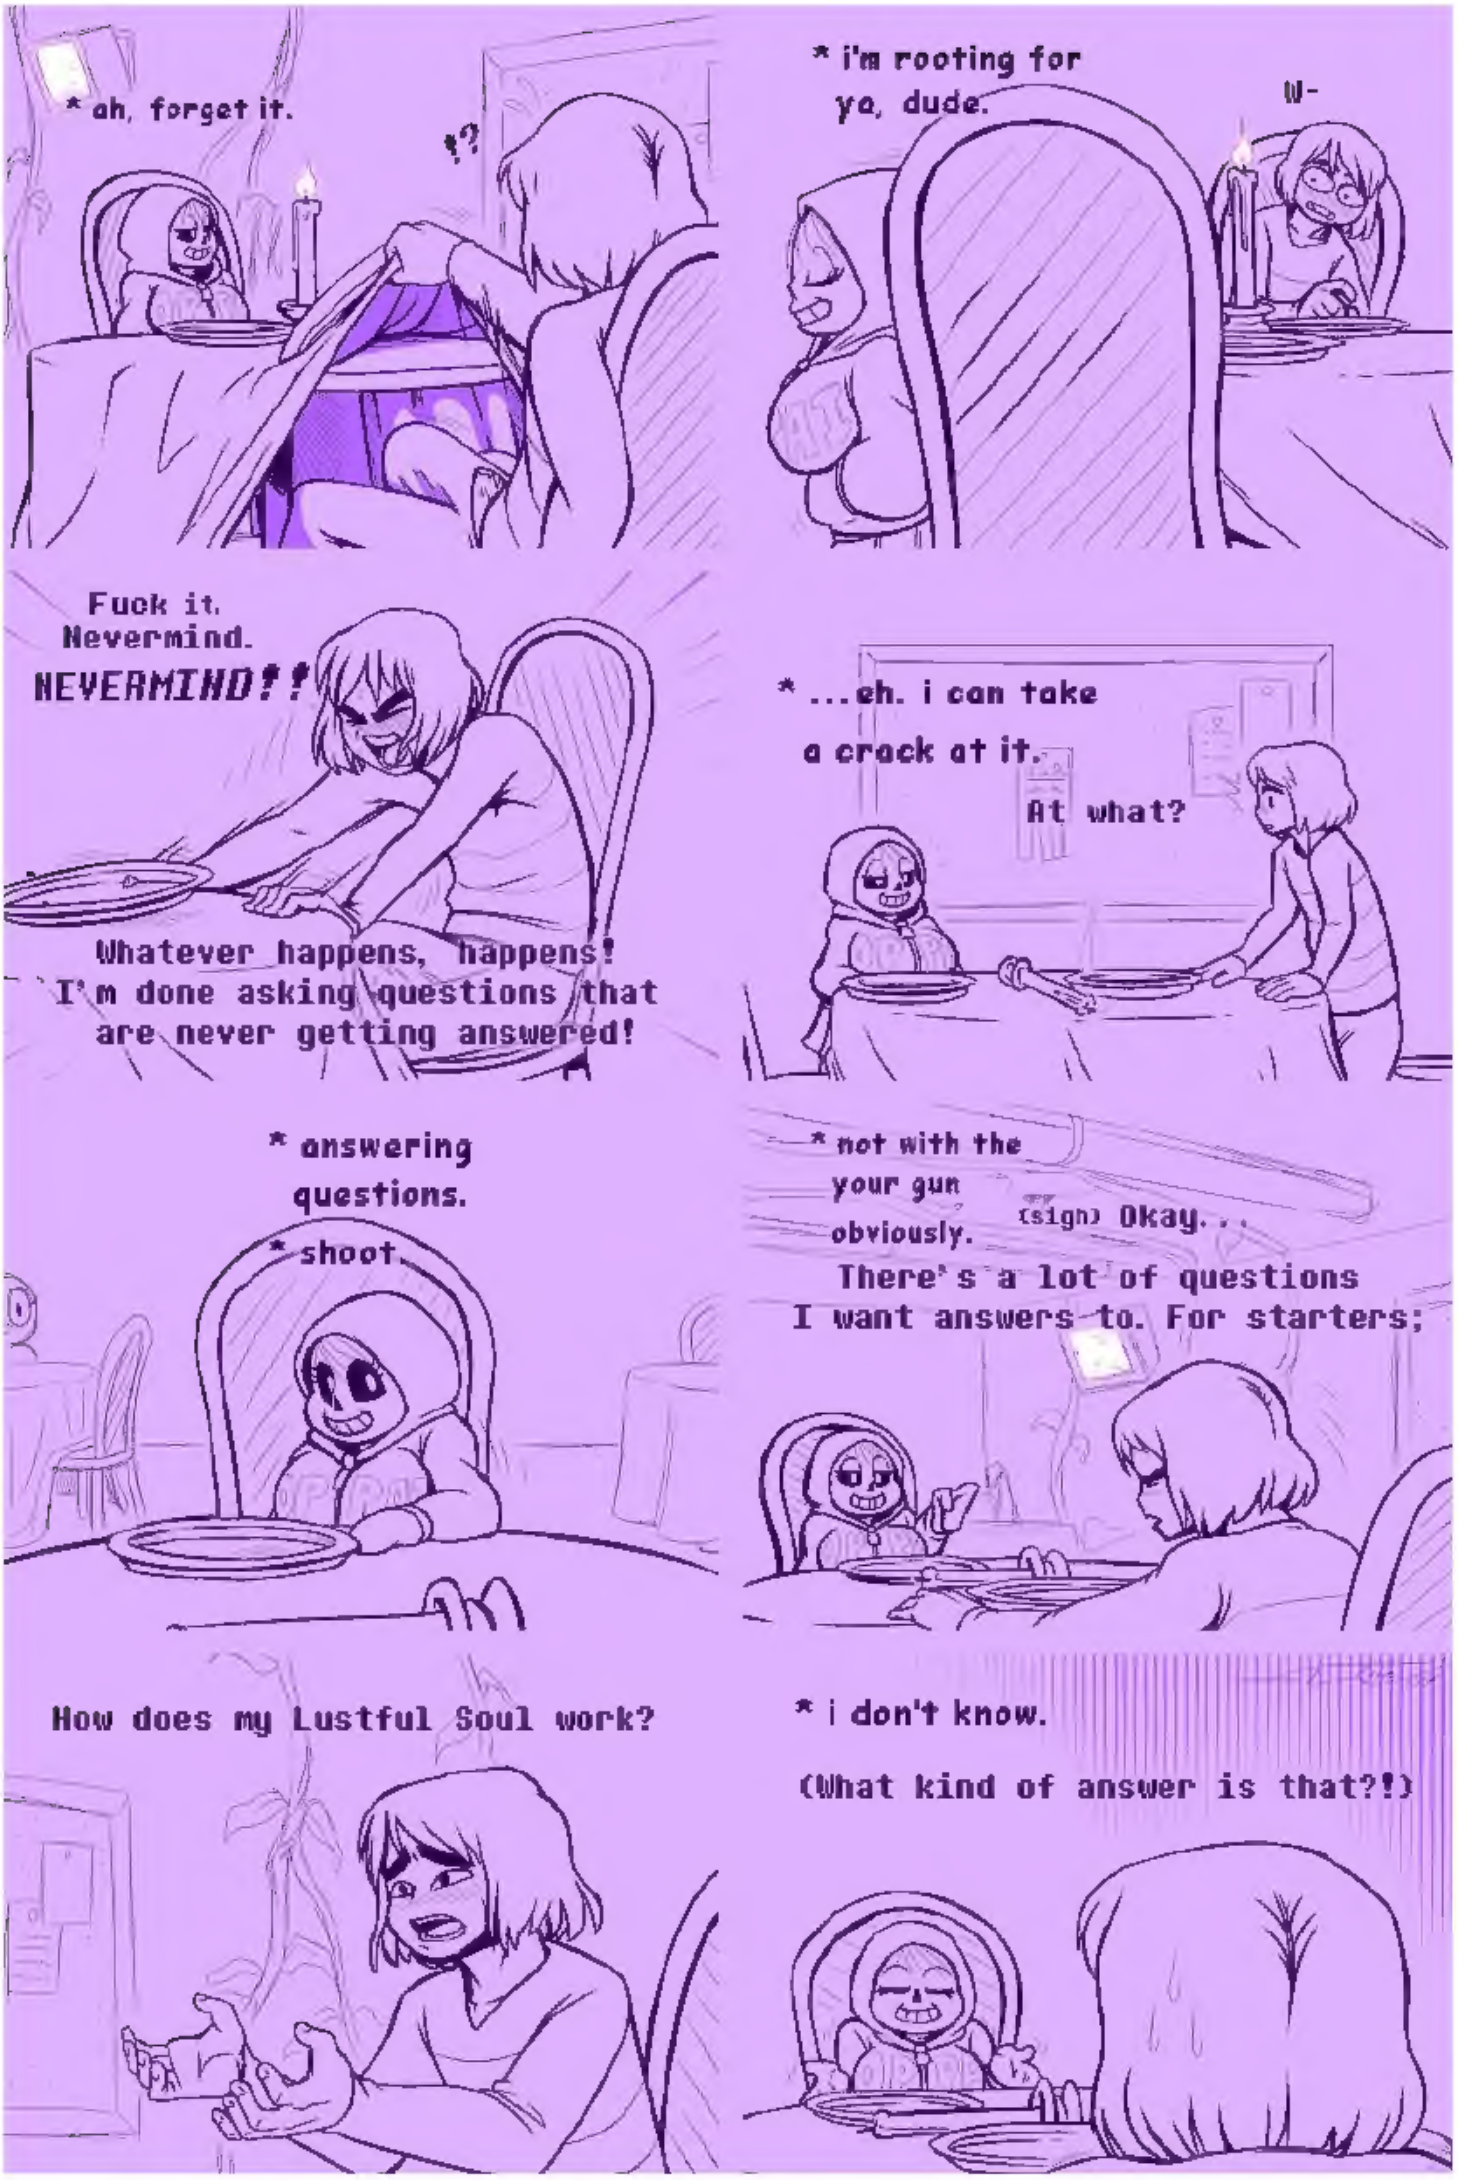
Look ladies, I stopped questioning this world's logic hours ago.
* ...uh.. l-like.. H-h-
* whoa... h how...?

Hey Comic. I'm guessing you took another "shortcut".
* yeah well i heard you're going to the core.
* how about grabbing some dinner with me first?
No time. I got six magic bullets with Mettabyte's name on-
GRRRWL~
uhh... actually, yeah. I'm starving.
* great, thanks for treating me.
Funny, I was going to say the same thing.
* is that a gun in your pants or are you happy to see me?
Its mostly a gun.

* so
* your journey's almost over, huh?
Uhh... Yeah. Seems like it, yep.
* you must really wanna go home.
I wouldn't exactly call it "home", but sure.
* so you don't really want to go home?
... I.. nevermind.
* nah, tell me buddo.
(sigh) Sometimes...
This place conflicts me more than anything I have faced in my whole life.
* down here you've already got food, drink, 'friends'...
!?
PRESS
* hey.
* I know the feeling, buddo.
* though maybe sometimes it's better to take what's given to you.
Real helpful advice there.
Comic, Gah..
* is what you have to do really worth it?
Hnn... I



* ah, forget it.
!?
* i'm rooting for ya, dude.
W-
Fuck it.
Nevermind.
NEVERMIND!!
Whatever happens, happens!
I'm done asking questions that are never getting answered!
* ...eh. i can take a crack at it.
At what?
* answering questions.
* shoot
* not with the your gun obviously.
(sigh) Okay...
There's a lot of questions I want answers to. For starters;
How does my Lustful Soul work?
* i don't know.
(What kind of answer is that?!)

Okay, I get that human men basically lose their souls here, but what about human women?

* ... what about them?

Its a weird question, but when I asked Nokyel about it she seemed to brush it off.

* buddo, are you familiar with this place's history?

Yeah, I've heard something about humans and monster-girls fighting a war and you all ended up sealed in a cave.

* ... mostly true, but i wouldn't have called it a war
* it was more of... a contest.

A contest?

* yeah.
* between human women and monster girls.

* you've been here long enough to realize monster girls are very sexually active.

No~ I've never noticed.

* it's not just the sex,
* but the love that fuels the inner self of a monster-girl.

* the more love there is, the more monster girls are made.

Wait, are you implying monster-girls can't get pregnant through sperm, but through... love?

* yeah, its mostly love.

Mostly?

* it might be possible, but that's how ladies make babies here.

(By love... weird...)

So wait, how did the wa- I mean, contest happen between humans and monster girls in the first place then?
* like i said, it became a contest of love.
* there were at one point many more monster-girls than human women.
* day by day, the number of human couples dropped.
But there had to be the expectations, right?
* of course, but that didn't stop human women as a whole to get angry about the deal.
* they made sure to keep their male counterparts away from the tempting monster-girls.
* jealousy, shaming, out-crys, and then finally taking action... woo boy.
(Were the monster girls back then really that tempting... that's insane. Half of them don't even look human to be honest.)
* on one hand was a fun night every night...
* on the other was the continuation of the human race.
* monster-girls were sin, as the law decreed.
* when war was declared, it was clear what side men took.
(Holy fuck... I just thought all of this stuff was a myth... but this...)
(The war between humans and monster-girls... It actually, really happened...)
* but hey, its not your fault.
* no one here really holds a grudge against cute guys like you.
... Is that grudge held against human women?
* personally, i don't care.
* but, lets say if you were a woman...
* buddy..
* ... You'd been dead the moment I saw you.

* hey, buckero!
* im just joking with you.
* besides, i've got you covered.
* i mean, you haven't died even once.
R-Right... and thanks?
* that's the promise i made to her,
* to bail you out if things get way too hairy for you.
* but you're "big" enough to handle things on your own.
Aww, your sister really cares for me that much? That's nice.
* i ain't talking about tempus...
* i'm referring to tutori.
* but, that's all for now.
* take care of yourself.
(Wh-Eh- ...) !!?
(The fuck is-)
(And did she just say-)
(How-)
(When did-)
(I- uh...)
(Welp, now several MORE qustions have been raised... fuck.)
... Check please.
